SABER SUMMER Spectacular

Our Mission

The New Community School empowers bright, talented students who are challenged by dyslexia and related learning differences. The innovative and research-based college preparatory curriculum uses a customized educational approach to build skills in language and math and to foster academic and personal strengths – igniting the passions and gifts of unique minds.

empowering bright minds who think & learn differently

4211 Hermitage Road, Richmond, VA 23227 | 804.266.2494 | tncs.org

Summer at TNCS is spectacular! From working on skills to uncovering and nurturing passions, there are many opportunities for your student this summer.

We are excited to once again be planning for IN-PERSON programs this summer. We will continue to follow CDC guidelines and our mitigation strategies. Masks will be required for all students on campus.

We have many new additions to offer this summer, including a course designed specifically for our newly admitted students, Driver's Education, and a variety of courses in the arts, computer science, literature, film, math, and writing! We even have some courses offered for Upper School credit. Taking a course for credit in the summer opens up our Sabers' schedules during the school year.

We have plenty of options for students in our community to be Summer Sabers, getting a taste of our program. As always, tutoring is also an option.

Please take a few minutes to explore our many offerings for our **SABER SUMMER spectacular**. Spaces in many classes are limited, so sign up soon. I look forward to seeing you on campus this summer.

Sincerely,

Nancy Foy
Head of School

LIFTSABERS: LEARNING INSTITUTE FOR TRANSFORMING SABERS **NEW**

This orientation class is for new fifth and sixth graders. You will brush up your math and language skills. We will do this by group and 1:1 tutoring. You will also learn how to plan and execute an idea that will help you with any project going forward. As a group you will participate in art, fitness, and drama classes where you can develop your own skills and enjoy creating and collaborating with each other. By participating in this institute, you will not only learn more about yourself, but you will also learn about your new school and learn about each other. By the end of the institute, you will be ready and confident to start school in August.

June 21-July 16 • 11:00am-12:50pm • \$1,200 (You will need to bring a lunch each day)

CODING AND INNOVATION

Express your creativity in the computer lab and art studio. You will be introduced to basic coding concepts and use visual-based coding apps to develop problem-solving skills. Explore your crafting ideas from paper and decorative textile and fashion. Project ideas will be provided, but you are encouraged to follow your own creative outlet.

June 21-July 16 • 8-8:50am • \$400

COSMIC ART **NEW**

Planetary artists have a job that is out of this world! Learn how these scientist-artists use elements of art to depict alien worlds and use them to create an alien world of your own. Students will apply the elements of art to understanding how planetary scientists use data to create renditions of what planets or other objects in space may look like culminating in a planet of their own design.

June 28-July 9 • 10-10:50am **OR** 1-1:50pm • \$200

CREATIVE WRITING: ARTFUL STORIES

Do you like to write or want to like to write? This creative writing class is called “Artful Stories.” You will be empowered to practice your written expression, logic skills, problem solving abilities, and other creative paths that incorporate chronological art.

June 21-July 16 • 9-9:50am • \$400

DON'T LET FRACTIONS AND DECIMALS TRIP YOU UP

Strengthen your basic math skills involving those tricky fractions, decimals, and percentages. You will experience multisensory activities to help you understand the concepts while practicing computational skills. You will use math manipulatives to reinforce whole number facts, explore fraction and decimal, and learn problem solving strategies. Class size is limited to allow for individual instruction.

June 21-July 16 • 9-9:50am • \$400

EXECUTIVE FUNCTION

Do you have trouble keeping everything together? Learn skills for organization, time management, and production. All of these skills will make your learning process smoother. You will set goals with manageable stops. With these skills you will no longer avoid projects, assignments, or other tasks. You will get things done and done right!

June 21-June 25 • 10-10:50am **OR** 1-1:50pm • \$125

FITNESS FOR THE ZOMBIE APOCALYPSE **NEW**

Can you survive the Zombie Apocalypse? You better get ready with exercises for evading Zombie attacks like cardio, rock climbing, parkour, and Tae Kwon Do.

June 21-July 2 • 1-2:50pm • \$400

IMPACT MATH

Work at your own pace and in small groups in mathematics beginning where you are now. You will develop Independence, Mindfulness, Problem solving, Adaptability, Communication, and Teamwork (IMPACT). You will determine when you are ready to go to the next topic using assessments for each concept. Watch your math confidence grow.

June 21-July 16 • 8-8:50am **OR** 10-10:50am • \$400

JV DRAMA

Train for the Virginia Theatre Association's One-Act competition. You will search for one-act plays and choose the play that is best suited for the class. Learn about memorization and designing technical elements of the show. Learn to present yourself in a positive

and professional way and how to conduct yourself in an interview or audition. Costuming and set design are also elements of this class.

June 21-July 2 • 11am-12:30pm • \$300

KEYBOARDING...A MUST-HAVE SKILL

Keyboarding is a must-have life skill. Get your points across using the keyboard. Learn the fundamentals of touch typing through an innovative, multisensory, language-based method. Learn some cool keyboarding tricks, too.

June 21-July 16 • 11-11:50am • \$400

LEARNING TO WRITE

Learn and review the basic parts of speech, using a multisensory approach, and ways words combine to create grammatically correct sentences. Once you learn sentence construction then you combine your sentences into paragraphs, building toward a longer creative narrative. Use of technological writing tools are encouraged.

June 21-July 16 • 8-8:50am • \$400

MINECRAFT EDU

Explore Minecraft through Minecraft Edu. Solve problems through a range of subjects. Build, create, and collaborate with your peers and the instructor. Have fun and learn at the same time.

June 21-July 16 • 11-11:50am • \$400

PREPARATION FOR ALGEBRA

Strengthen your math skills so that you can tackle Algebra. Explore positive and negative integers, orders of operation, variables, and linear equations with an emphasis on the development of effective problem-solving strategies and positive work habits. Class size is limited to allow for individualized instruction.

June 21-July 16 • 8-8:50am **OR** 9-9:50am • \$400

PRINTMAKING **NEW**

Have you ever wanted to create your own brand of clothing or learn how to silkscreen a tee shirt? In this class, students begin with the basics of relief printmaking and create their own signature logos that can be silk-screened onto shirts, hats, canvases, and more!

June 21-July 2 • 2-2:50pm **OR** July 6-July 16 • 11-11:50am • \$200

ROBOTICS

Develop your skills in engineering, innovation, communication, and collaboration. You will work collaboratively to build, program, and operate a robot. You will use your robots to compete in a series of challenges that foster accountability, responsibility, initiative, sportsmanship, curiosity, and communication.

June 21-July 16 • 9-9:50am • \$400

STEWARDSHIP: SUSTAINABLE PRACTICES **NEW**

What are the consequences of your footprint on this earth? Going forward with our planet Earth, how do you ensure that the Earth will be thriving in the future. In this two-week course, you will study the ideas of stewardship, sustainability, and coordinated conservation. By studying such topics as the human footprint, reducing consumption and waste, reframing our relationship with nature, upcycling public and private practices, energy and food systems, and creating an effective stewardship practice, you will discover your own philosophy and make an action plan to create a better earth. This class includes field trips (with COVID precautions in place) and guest speakers.

June 28-July 9 • 1-2:50pm • \$400

SURVIVAL CRAFT NEW

Suppose you were shipwrecked on a desert island. Would you know how to survive? Learn different skills such as starting campfires, tying knots, fishing, and setting up a campsite. Learn these hands-on experiences with readings from Jack London, Jon Krakauer's *Into the Wild*, Gary Paulsen's *Hatchet*, and the like.

July 6-16 • 1-2:50pm • \$400

VOICE NEW

You love to sing but do you want people to hear your voice? Learn the basics of vocal health while singing. As a student in this class, you will have the opportunity to learn the basics of the piano, simply to help you learn pitch and starting notes. You will also be trained how to properly warm up the voice, what physical exercises will help improve the voice, dietary suggestions, and various breathing techniques. By the end of this course, you will have the option of creating an original song/cover that expresses who you are as an artist. You will decide what you want your final project to be: a solo, duet, group cover/original song. This course is set up to prepare you for intermediate levels if you choose to seek that additional training outside of TNCS.

June 21-July 16 • 9-9:50am • Due to COVID restrictions, this class may be online • \$400

- Varsity Drama
- Voice **NEW**

TNCS is excited to offer a select number of credit-bearing courses this summer. All courses are taught by members of the TNCS faculty. Courses completed during the summer term provide students the opportunity to focus on a single course allowing for deeper learning and understanding. The earned summer credit also provides flexibility when planning their future program of study.

- Advanced PE: Fitness for YouTube **NEW**
- Creative Writing **NEW**
- Junior Seminar: Intro to Common App and SAT/ACT Verbal and Math **NEW**
- Personal Finance and Career Explorations **NEW**

COLLEGE ESSAY AND THE COMMON APP **NEW**

Recommended for rising 12th graders

You will be busy your senior year. Why not take the pressure off of yourself by working on the Common App this summer and get your college career started! The college essay or essay prompts are the key to letting colleges know who you really are. This course will help you construct a well-written piece that becomes a compelling portrait of yourself that goes far beyond the application, test scores, and transcripts can ever say about you.

June 21-July 2 • 11am-12:50pm • \$400

DRIVERS' EDUCATION **NEW**

Want to learn how to drive? Take this course from RVA Driving Academy who will come to our campus to deliver state approved classroom instruction in a safe, considerate, passionate environment. They will teach you how to be a successful driver who makes good decisions. Topics include components about alcohol safety, drug abuse awareness, aggressive driving, distracted driving, pedestrian and bicycle safety, handicapped parking, fuel efficient driving practices, motorcycle awareness, and organ and tissue donation awareness. This class requires 36 hours of instruction. We will also have a TNCS instructor in the class to help. Recommended age of student is 15+. Minimum of 10 students. The owner, Julie Barlow, will meet with parents via zoom before class starts to answer questions.

June 21-July 12 • 8-10am • \$500 (\$400 for students enrolled in TNCS for the 2021-22 school year)

ELECTRONICS **NEW**

Learn the basics of electricity and electrical components. You will get hands-on experience designing and building circuits and then applying your knowledge and skills to a project of your choice. This class encourages collaboration, problem solving, and creativity.

June 21-July 16 • 10-10:50am • \$400

FILM STUDY **NEW**

Do you like movies? In this class you will use your ability to interpret and critique the narrative structure through the cinema. You will learn about film techniques through text and examples, and craft short pieces of writing that will be revised and polished. From film reviews to informative text, you will work in a variety of formats and will function as a writing community for the benefit of all.

June 21-25 • 10am-12:50pm • \$300

INSTALLATIONS AND DISRUPTIONS **NEW**

Curious about community art and sculpture? In this class we will explore art that interacts with an audience and space by creating performative pieces, sculptures, and even art that disrupts the environment. By studying examples from around the globe, students become activists, experiment with non-traditional media, and consider the power of context in meaning making.

July 6-16 • 8-9:50am • \$400

INTRO TO 3D MEDIA/CERAMICS **NEW**

Interested in learning more about ceramics and sculpture? In this introductory course, students will learn hand building ceramic techniques including pinch, coil, and slab construction as well as practice on the pottery wheel. Techniques covered include sgraffito, slip running, bas relief, and more!

July 6-16 • 2-3:30pm • \$300

INTRO TO DIGITAL PHOTOGRAPHY

Cell phones are great for pictures, but you end up with pretty tiny files. Learn more about a digital camera and how it works. In this intro to digital photography class, you will learn how to compose photographs, as well as operate your own digital camera. Practice includes macros, landscape, portrait, and digital editing. Students may bring their own camera or borrow one from TNCS.

June 21-June 25 • 8-9:30am • \$150

PREVIEW TO ALGEBRA II **NEW**

Brush up those math skills so you are prepared for Algebra 2 in the fall. Topics will include the more challenging concepts such as slope intercept form, exponent rules, multiplying and dividing polynomials, and factoring. Bring along your TI84 calculator to class to assist you in mastering these tricky problems.

June 22-July 15 • Tuesdays and Thursdays • 9-10:50am • \$325

PREVIEW TO GEOMETRY **NEW**

Need to work on your math skills to be successful in Geometry? Algebra skills will be reinforced with an introduction to Geometry applications and new concepts that will be applied toward your Geometry fall semester course. Gain your confidence with this preview to Geometry!

June 28-July 16 • Mondays and Wednesdays • 11-11:50am • \$125

SUSTAINABILITY **NEW**

What are the consequences of your footprint on this earth? Going forward with our planet Earth, how do you ensure that the earth will be thriving in the future? In this two-week course, you will study the ideas of stewardship, sustainability, and coordinated conservation. By studying such topics as the human footprint, reducing consumption and waste, reframing our relationship with nature, upcycling public and private practices, energy and food systems, and creating an effective stewardship practice, you will discover your own philosophy and make an action plan to create a better Earth. This class includes field trips (with COVID precautions in place) and guest speakers.

July 12-23 • 1-2:50pm • \$400

THESIS, THESIS, THESIS: STRENGTHENING YOUR WRITING **NEW**

What is a thesis? Do you get lost in the details of an essay or research paper or is your paper lacking essential information? This course will help you learn how to construct a strong thesis for an essay or research paper. It will also show you step-by-step how to manage a research paper using your thesis as a guide, plus how to do the valuable research to get your point across. Your final product will be a research paper on a topic of your choosing. This course is valuable for your high school and college career.

June 21-July 2 • 1-2:50pm • \$400

TOLKIEN AND LEWIS **NEW**

Did you love *The Hobbit*, *Lord of the Rings*, and *Chronicles of Narnia*? Have you ever wondered how and, maybe more importantly, why these books were written? And what did World War I have to do with their writing? This course will help you find out by exploring the in-depth relationship between C. S. Lewis and J. R. R. Tolkien and their outlook on the world around them. We will read one book in class in its entirety-Joseph Loconte's *A Hobbit, A Wardrobe, and a Great War: How J. R. R. Tolkien and C. S. Lewis Rediscovered Faith, Friendship, and Heroism in the Cataclysm of 1914-18*. We will use journal reflections that address the ideas in this class.

July 6-16 • 11am-12:50pm • \$400

ADVANCED PE: FITNESS FOR YOUTUBE NEW

Do you ever watch videos of people exercising? Be the leader of your own exercise course. The TNCS Fitness For YouTube video course teaches you how to create YouTube content then share your work by building the TNCS channel and create a following. The approach gives you an opportunity to be both creative and learn about getting fit at the same time. Some of the skills you will develop are creating content, videography, editing, uploading, etc. There's also a short live in-person workout portion integrated into each class period. You will actually create a YouTube series of videos including workouts, nutrition advice, and fitness tips. At the beginning of the course, you will work on story board ideas that will be used for the entire length of the summer class. We will discuss different steps of the process, such as selecting a camera to use, editing video footage, shooting the video, creating a TNCS YouTube channel, optimizing videos, and marketing the YouTube channel. .5 semester credit
 June 21-July 16 • 1-2:50pm, plus asynchronous time* • \$950

CREATIVE WRITING NEW

To look and to listen, to see and to hear, to be witnessed and to be heard. These actions inform identity and provide a path forward. Writing offers a bridge between the head and the heart. In the words of author Natalie Goldberg, "Writing allows you to penetrate your life and learn to trust your own mind." This exploratory, personal writing course provides a place for you to find and feel comfort, confidence, and creativity through written expression. Dynamic and immersive, the course will focus on the personal essay, the short story, and poetry. Components of the craft of writing will be carefully examined, as well as its process: prewriting, drafting, revision, and editing. You will have daily opportunities to write, share, critique, and collaborate within a trusted community of writers.
 June 28-July 23 • 9-10:50am, plus asynchronous time* • \$950

JUNIOR SEMINAR: INTRO TO COMMON APP AND SAT/ACT VERBAL AND MATH NEW

Recommended for rising 11th graders
 Get a jump start on preparing for college this summer. The Common App is even more common now with colleges. You will learn about the Common App and what it takes to complete it. You will also brush up on your SAT/ACT preparation in both Verbal and Math. You will learn strategies and complete practice tests to help you gain more confidence and increase your scores.
 June 21-July 9 • 11:00-1:50, plus asynchronous time* • \$950

PERSONAL FINANCE AND CAREER EXPLORATIONS NEW

Recommended for rising 10th graders
 This class has two components: Personal Finance and Career Explorations. **Personal Finance:** Money, Money, Money! What to do with all of your money, or the lack of it. You will explore personal finances and what that means in terms of banking your money. Learn why savings are an important part of personal finances. You will delve into the world of investments and how this may affect you. You will learn how taxing works with your own money. You will create a budget for yourself and understand how this will help you make decisions about your personal finances. **Career Explorations:** How many times have people asked you what you want to do when you grow up? The world is open to you. This class will help you seek what your areas of interest are. It will also help you to see what you will need in terms of your career, such as years of college and the skills that are required. You will set goals for yourself by using current career resources. You will have plenty of hands-on activities to help you discover what you want to do when you grow up.
 June 21-July 16 • 9-10:50am, plus asynchronous time* • \$950

*asynchronous time = work on your own and checking in with the instructor

VARSITY DRAMA

Train for the Virginia Theatre Association's One-Act competition. You will search for one-act plays and choose the play that is best suited for the class. Learn about memorization and designing technical elements of the show. Learn to present yourself in a positive and professional way and how to conduct yourself in an interview or audition. Costuming and set design are also elements of this class.
 July 6-16 • 11am-12:30pm • \$300

VOICE NEW

You love to sing but do you want people to hear your voice? Learn the basics of vocal health while singing. As a student in this class, you will have the opportunity to learn the basics of the piano, simply to help you learn pitch and starting notes. You will also be trained how to properly warm up the voice, what physical exercises will help improve the voice, dietary suggestions, and various breathing techniques. By the end of this course, you will have the option of creating an original song/cover that expresses who you are as an artist. You will decide what you want your final project to be: a solo, duet, group cover/original song. This course is set up to prepare you for intermediate levels if you choose to seek that additional training outside of TNCS.
 June 21-July 16 • 10-10:50am • \$400 • Due to COVID restrictions, this class may be online.

REGISTRATION

Registration for the **SABER SUMMER *spectacular*** begins on February 1, 2021. To participate, please complete the registration form and submit the required \$50 non-refundable deposit. You may fill out the form on the last page and mail it to the address below, or complete the form and make the deposit online. A confirmation email will be sent upon receipt of registration. Remaining balances must be paid by May 15, 2021. Monthly payment options are available.

Mail to: The New Community School, Attn: Margie Gray, 4211 Hermitage Road, Richmond, VA 23227

Online registration: tncs.org/academics/summer

BEHAVIOR POLICY

We expect all students to abide by The New Community School values while on our campus. Students will act with respect for themselves, their peers, their leaders, and their surroundings. Should there be concerns about student behavior, parents will be informed and the student may be asked to leave. No refunds will be given for individuals who are asked to leave a program because of behavior.

CANCELLATION OF CLASSES

There are minimum and maximum class sizes for all courses. The New Community School reserves the right to cancel any course as necessary. In such cases, a full refund will be made. Tuition is refundable after May 15, 2021 only if The New Community School cancels a course or program. In the event of extreme weather conditions or unforeseen circumstances, we reserve the right to cancel or postpone any part of a class for the safety of the students and cannot provide a refund for any cancellation or postponement that is weather-related.

COVID-19 POLICY

The New Community School is taking every precaution to keep our community and campus safe in accordance with CDC guidance. Classrooms have been arranged to accommodate social distancing and are disinfected regularly. Hand sanitizer is available and frequent hand washing is encouraged. All faculty, staff, and students are required to check their temperature every morning and complete a daily wellness check prior to arriving on campus, and to wear a clean, multi-layer mask. If students are taking a morning and afternoon class, they will eat lunch socially distanced and supervised outside, weather permitting. Students should bring a bagged lunch (refrigerators, and vending will not be available), and may want to bring a beach towel or bag chair for lunchtime.

FINANCIAL AID

Limited financial aid is available. For more information, please contact Joy Buzzard, Director of Finance and Operations, at 804.266.2494 x2211 or jbuzzard@tncs.org.

INSURANCE INFORMATION

Parents must agree to provide health and accident insurance for the student and to indemnify the school and its personnel against any liability for student accident or health problems.

MEDICATION

All medications, including Epi Pens and inhalers, must be properly labeled with directions for use and the specific time of day to be administered. Medications should be provided to the office on or before the first day of class, excluding Epi Pens and inhalers which should remain with the student (a small backpack works well).

PHOTOGRAPHY AND VIDEOGRAPHY

Unless we receive a written letter to the contrary, The New Community School exercises the right to use any photographs and/or video taken of individuals participating in the **SABER SUMMER *spectacular*** in its promotional publications and online.

summer tutoring

- for middle & upper, post-graduate, & college students

Whether preparing for the next grade in school or for the transition to college, summer tutoring is an opportunity for students to improve and strengthen academic skills through instruction tailored to meet individual needs and delivered on a schedule that is flexible and convenient. Skilled TNCS tutors design a customized instructional plan and use a diagnostic-prescriptive approach to support students in achieving their goals. Students improve skills, acquire learning strategies, broaden their knowledge base and gain confidence in their abilities. Our programs are designed to build the skills that empower students to take charge of their learning and foster academic success.

- \$65 per hour

Distance and remote tutoring can be arranged.

For more information or to discuss how tutoring might meet your needs, please contact Robin Forsyth, Tutoring Coordinator, at 804.266.2494 x2225 or rforsyth@tncs.org.

TUTORING AREAS OFFERED

- 1:1 College Counseling
- College Essay
- College Preparation and Readiness
- Customized Learning
- Executive Function and Study Skills
- Language Fundamentals
- Math Skills
- Reading Skills
- Test Preparation
- Writing Skills

PARENT / GUARDIAN AUTHORIZATION

To the best of my knowledge, the information I have supplied on this registration form is true and accurate. In the event that my child needs medical attention, I authorize and give my consent to The New Community School to provide such service and/or transport my child to a hospital or treatment facility. I hereby certify my child is in good health and may participate in all activities. I hereby give my permission for my child's picture to appear in future publications (see page 19 for more details). I give permission for my child to ride in school-approved transportation to and from class activities (where applicable). I agree to be responsible for all the charges and fees for my child enrolled in this summer program. I also accept and my child will abide by the COVID-19 policies in place at the time Saber Summer Spectacular begins.

Parent / Guardian Signature _____ Date _____

*Entering your name in the parent/guardian signature field(s) on this form and emailing the completed form to the school will verify that you are signing this record as the parent or legal guardian of the child listed above. You may also choose to print the form, sign it, and return the original copy to the school, or complete the registration online at tncs.org.
