

Into the Wild by Jon Krakauer is a really good book, and I recommend it as one of my favorite books. This book is about a young man that graduated college and was tired of society. He tried to get as far away from society as possible and lived in the Alaskan wilderness for about forty days. Before his death in Alaska, he went on a long journey and met a lot of interesting people along the way. He learned a lot from those people and his journey. This book is a very interesting read and a really good book. The reading is at a high level, but it is definitely a good story, leaving you wanting to read more.
