Have you heard the buzz about Structured Word Inquiry (SWI)?

Structured Word Inquiry is a structured literacy approach to teaching English orthography (spelling) by investigating the interrelationship of the morphology (meaning and structure), etymology (history), and phonology (sounds) of words. *Ashley Blevins, Speech-Language Pathologist and IDA Certified Dyslexia Practitioner*, will explain this approach. The only materials required to teach Structured Word Inquiry are curiosity, pencil/paper, and internet access. Join us!

Decoding Dyslexia Virginia is a grassroots movement focused on linking families to resources, support, and educational interventions for dyslexia. We aim to raise awareness, empower families to support their children and inform policy-makers on best practices to identify, remediate and support students with dyslexia in Virginia.

Our group is made up of parents whose children are dyslexic. We are not experts; we are not a business or an educational organization. We offer the community the benefit of our collective experiences.
