

The Beginning to a Great Series

I read the book *Percy Jackson and the Lightning Thief*, written by Rick Riordan. The best word to describe this book is thrilling. It stands out from other books because the main character is a Greek hero, but he is a kid.

The book is about the son of Poseidon on a quest to prove that he did not steal the master bolt from Zeus. Some of the highlights of the story are when the eleven-year-old Percy fights the war god Ares and basically wins. What I won't tell you is who really stole the master bolt. I think you would enjoy this book because the main character is funny and relatable. He shows these qualities in the way that he narrates the story. Have you read any good books lately?
