

Seriously...I'm Kidding by Ellen DeGeneres
Book Review by Mackenzie Hoffman

I read the book *Seriously...I'm Kidding*, written by Ellen DeGeneres. The best word to describe this book is amusing. It stands out from other books because each chapter is about a different topic. The book is about many funny stories that Ellen has made up or occurred in her life. What I won't tell you is how many times I found myself cracking up with laughter in LF class last year. I think you would enjoy this book because it is an intriguing book for guys and girls. Have you read any good books lately?
